

# South West Technicians Network

## What's in it for me?

A fantastic opportunity to receive high quality technician-focused CPD from senior technician, Stacey Wheeler. The network meetings will also include updates, guidance and the opportunity to collaborate and share good practice.

## What does the network package include?

Two remote network meetings:

- 7 January and 2 March 2021

Plus two remote CPD courses:

- Health & Safety: 21st January 2021
- Maintaining your prep room: starts 2 Feb 2021

These events are all bookable individually at the links above, but your school can **save 30%** and sign up an unlimited number of technical support staff by subscribing to the full package for **just £120**.

To purchase a subscription

# Subscribe to our Technician Network today

## Network meetings (1hr remote)

- Consider ways in which the technical support staff role can be optimised in science departments
- Receive the latest updates, develop best practice, share expertise and ideas
- Identify future development needs

## Health & Safety (3hrs remote inc. participant task)

- understand the key areas of concern in science depts
- identify good practice in risk assessments for technician and teacher activities
- use good practice to audit labs, prep rooms and stores

## Maintaining your prep room (5hrs remote inc. participant tasks)

- arrange your prep room to be manageable, safe and time efficient
- organise time management of technicians working in the prep room
- look at different practical requisitions or booking forms
- successfully record inventories and equipment
- ensure you have the documentation you need in the prep room to help you work safely
